Article type: Methods Article.

Special issue: Plant Modeling, Big Data Analytics, and High-Throughput Phenotyping for Smart Agriculture (submission category: VSI: PMBDA2025).

Author Contributions

Haoming Wang: Conceptualization, Data curation, Formal analysis, Investigation, Methodology, Physical-reference annotation, Software, Validation, Visualization, Writing—original draft, Writing—review and editing. Chong Wang: Conceptualization, Data curation, Formal analysis, Methodology, Software, Simulation, Validation, Visualization, Writing—original draft, Writing—review and editing. Yawei Li: Data curation, Field investigation, Resources, Validation, Writing—review and editing. Cheng-Ting Yeh: Validation, Writing—review and editing. Patrick S. Schnable: Conceptualization, Experimental design, Funding acquisition, Resources, Supervision, Writing—review and editing. Peng Liu: Conceptualization, Data curation, Formal analysis, Methodology, Project administration, Software, Simulation, Supervision, Validation, Visualization, Writing—original draft, Writing—review and editing. All authors approved the final manuscript.

Funding

This work was supported by the Plant Sciences Institute at Iowa State University and funds from the Laurence H. Baker Center for Bioinformatics and Biological Statistics.

*Corresponding author: Peng Liu, Department of Statistics, Iowa State University, 2117 Snedecor Hall, 2438 Osborn Drive, Ames, IA 50011-1090, USA.

Email address: pliu@iastate.edu (Peng Liu)

Acknowledgments

The authors thank the field and annotation teams whose contributions are represented in the CRediT statement.

Conflict of Interest

The authors declare no conflict of interest.

Data and Code

Public repository: github.com/ChongWangStat/Bayesian-Longitudinal-Maize-Height. A self-contained anonymous review archive accompanies the double-anonymized files. Code is MIT licensed. No separate reuse license has been confirmed for non-code data, images, annotations, model weights, figures, or manuscript materials.

Author Approval and Originality

All authors approved submission. The manuscript and method have not been published previously, are not under consideration elsewhere, and no conflict of interest is declared.
